

Edexcel GCSE

Mathematics (Linear) – 1MA0

BEARINGS

Materials required for examination

Ruler graduated in centimetres and millimetres, protractor, compasses, pen, HB pencil, eraser.
Tracing paper may be used.

Items included with question papers

Nil

Instructions

Use black ink or ball-point pen.

Fill in the boxes at the top of this page with your name, centre number and candidate number.

Answer all questions.

Answer the questions in the spaces provided – there may be more space than you need.

Calculators may be used.

Information

The marks for each question are shown in brackets – use this as a guide as to how much time to spend on **each** question.

Questions labelled with an **asterisk** (*) are ones where the quality of your written communication will be assessed – you should take particular care on these questions with your spelling, punctuation and grammar, as well as the clarity of expression.

Advice

Read each question carefully before you start to answer it.

Keep an eye on the time.

Try to answer every question.

Check your answers if you have time at the end.

1.

Diagram NOT
accurately drawn

$$180 + 40$$

Work out the bearing of B from A .

START POINT

220°

(2 marks)

2.

(a) Write down the bearing of A from P .

Bearings
are always
3 digits

060°

(b) Work out the bearing of B from P .

$$360 - 140$$

220°

(3 marks)

3.

- (a) Measure and write down the bearing of B from A .

$$360 - 29$$

..... 331°
(1)

- (b) On the diagram, draw a line on a bearing of 107° from A .

clockwise

(1)
(2 marks)

4. The diagram shows the position of two ports P and Q on a map.

- (a) Measure the bearing of Q from P .

..... 048°
(1)

A rock R is on a bearing of 150° from Q .
On the map R is 6 cm from Q .

- (b) Mark the position of R with a cross (\times) and label it R .

(2)
(3 marks)

5. The diagram shows the position of a lighthouse L and a harbour H .

The scale of the diagram is 1 cm represents 5 km.

- (a) Work out the real distance between L and H .

$$6.8 \times 5 = 34 \text{ km}$$

..... 34 km
(1)

- (b) Measure the bearing of H from L .

..... 110° °
(1)

A boat B is ^{= 4 cm} 20 km from H on a bearing of 040°

- (c) On the diagram, mark the position of boat B with a cross (\times).

Label it B .

(2)
(4 marks)

6. The diagram shows the positions of two villages, Beckhampton (B) and West Kennett (W).

Scale: 4 cm represents 1 km.

This is a tricky scale!

- (a) Work out the real distance, in km, of Beckhampton from West Kennett.

$$9.6 \div 4 = 2.4 \text{ km}$$

$$\begin{array}{r} 2.4 \\ 4 \overline{) 9.6} \end{array}$$

..... 2.4 km
(2)

The village, Avebury (A), is on a bearing of 038° from Beckhampton.

On the diagram, A is 6 cm from B .

- (b) On the diagram, mark A with a cross (\times).
Label the cross A .

(2)

(4 marks)

7. The diagram shows the position of two boats, P and Q .

The bearing of a boat R from boat P is 060°

The bearing of boat R from boat Q is 310°

Draw this line extra long

Easier to draw as 50° anticlockwise

The point where lines cross is R

In the space above, draw an accurate diagram to show the position of boat R .

Mark the position of boat R with a cross (\times). Label it R .

(3 marks)

8. The diagram shows the positions of two telephone masts, A and B , on a map.

- (a) Measure the bearing of B from A .

059° (1)

Another mast C is on a bearing of 160° from B .

On the map, C is 4 cm from B .

- (b) Mark the position of C with a cross (\times) and label it C .

(2)

(3 marks)

9. The bearing of a ship from a lighthouse is 050°

Work out the bearing of the lighthouse from the ship.

DRAW A SKETCH!
If accurate, you can
measure the bearing

.....
230°

(2 marks)
